City of Newton Rollout Container Service Policy
July 1, 2015

- 1) Anyone receiving city rollout container service will be limited to the equivalent of two 96 gallon containers each week. Anyone receiving the service must have a least one city owned rollout and pay a customer deposit, minimum of one monthly tipping fee and one monthly collection fee.
- 2) Anyone that consistently disposes of more than the equivalent of two 96 gallon containers of debris per week per account will be required to utilize additional approved containers and will be charged a rate equivalent to the current City Commercial Dumpster rates. For example – Six 96 gallon containers is equivalent to one 4 cubic yard dumpster. (See rate chart below)
- 3) Customers must use only city approved rollout containers that are compatible with the tippers on the city's sanitation equipment and place overflow garbage up to the equivalent of a 96 gallon container beside the city rollout.
- 4) If more than two city containers are obtained by a customer then the monthly charge will be based on how many city rollout containers they have and not how many they use each week.
