ITEM 6: New Business

A. 2012 Swimming Pool Report

Parks and Recreation Director Sandra Waters stated that she has provided City Council a copy of the pool report for June 2011 and June 2012 outlining attendance, revenues, and hours of operation and marketing strategies.

Ms. Waters stated that attendance has increased by 653 participants, which is a 66% increase compared to June 2011, and that this increase in attendance is primarily due to an increase in the number of day camps bringing children to the pool. Ms. Waters explained that additional activities at the pool have increased as well, including:

- 1 pool rental
- Water aerobics attendance has increased by 12 participants, and
- 15 participants for children swimming lessons compared to 0 participants in June 2011.

Ms. Waters stated that marketing and advertising materials were distributed to all Newton-Conover City Schools, 126 daycares and other Catawba County Schools. She stated that newspaper, cable TV and utility billing were also utilized for promotion of the Newton Pool, and that the marketing and advertisements have had a significant impact on swimming pool attendance and revenues.

Mayor Stedman stated that everything at the pool looks good.
Council Member Mary Bess Lawing stated that she has seen lots of people walking to the pool, and that there was very good advertisement this year. Ms. Waters thanked Public Information Officer Gary Herman for all the advertisements that he provided for the pool.

B. Consideration of Request from the Green Room Community Theatre Concerning Loading Zones

City Manager Todd Clark explained to City Council that the Green Room is requesting loading/unloading zones in front of the Old Post Office Playhouse on Main Avenue and along the side entrance on A Street, in order to accommodate patrons. He stated that signs along each street will be posted and would designate the zone for loading and unloading between 7:00 p.m. and 11:00 p.m. each day.

Mr. Clark stated that in accordance with Section 54-171 of the City Code, the City Council can cause to have erected, placed or installed signs limiting the time or the purpose for parking, standing, or stopping. This is construed to include loading zones which are defined as the area of a space adjacent to a curb, reserved for the exclusive use of trucks, buses, vans and other motor vehicles specifically designed to transport passengers or materials.

Mr. Clark stated that the appropriate Departments have reviewed the request and feel that this will actually increase safety of the motoring public, as cars will be able to move out of the traffic lane and not have to “double-park” in order to drop off or pick up patrons to the events. DOT has also been contacted to confirm approval of the loading zone on Main Avenue.

The Green Room Community Theatre, Inc. Executive Director Sherry Butler stated that she would like to suggest a sign on which a magnetic sign could be placed during the time that the loading zone would be needed. The loading zone would prohibit double parking and grant easier access for people with mobility issues. She stated that she did not want to tie up parking when there were no performances.

Council Member Wes Weaver stated that the Old Post Office Playhouse is one of the most beautiful buildings in the city, and he did not want to place permanent signs all around it. Mr. Weaver stated that he also felt like it could cause confusion as to parking times, and that those spaces are used by other businesses downtown throughout the day.

Council Member Tom Rowe made a motion to use temporary portable signs during performances. Motion was seconded by Council Member Wes Weaver.

Council Member Wes Weaver asked for clarification if these would be signs that would come in and out. He stated that temporary signs could be more visible.

Council Member Robert C. Abernethy, Jr. stated that he would like a way to make it easier for Ms. Butler and the Green Room to be more successful, and wanted to know what Ms. Butler might suggest. Ms. Butler stated that she would work with Mr. Clark to do whatever is easiest.
Council Member Wayne Dellinger made a motion to use the existing sign on Main Avenue, on which a magnetic sign could be placed during performances at the front of the building, and two temporary signs that could be placed during performances at the side of the building. Mayor Stedman stated that there was already a motion and a second on the floor. Council Member Tom Rowe withdrew his original motion. Council Member Robert C. Abernethy, Jr. seconded the motion made by Council Member Wayne Dellinger and it was unanimously RESOLVED:

That Consideration of Request from the Green Room Community Theatre Concerning Loading Zones be APPROVED as follows - That a magnetic sign could be placed on the permanent sign post at the front of the building during performances, and that two temporary signs could be placed at the side of the building during performances only.

**ITEM 8: Questions and Comments from Mayor and Council**

Mayor Stedman asked if there were any questions or comments from City Council.

Council Member Robert C. Abernethy, Jr. stated that he had been contacted by a citizen, Magda Flanagan, concerning flooding issues on her private property. Mr. Abernethy stated that he explained that this is not anything that the City can address.

City Manager Todd Clark stated that Ms. Flanagan’s issue is a civil matter with her neighbor involving a bridge on the neighbor’s property that backs water up into Ms. Flanagan’s property. He stated that the property is not on any flood plain map, and that the zoning permits were done appropriately.

**ITEM 9: Adjournment**

Upon motion duly made by Council Member Robert C. Abernethy, Jr., seconded by Council Member Mary Bess Lawing, the meeting was RECESSED until 6:00 p.m., September 4, 2012.
